

Zebra® ZXP Series 1™ Card Printer

SEE MORE. DO MORE.

Affordable, Entry-Level Printer

The ZXP Series 1 card printer has been designed specifically for customers who need a quality printer at a competitive price. Ideal for low-volume, single-sided printing applications in colour or monochrome, the ZXP Series 1 offers a complete card printing solution with a minimal upfront investment. Its ENERGY STAR® certification and Eco-friendly print cartridges make it the best entry-level printer on the market.

Ease of Use

The ZXP Series 1 requires little technical support or user training. Operation is made simple with intuitive user interface and colour touch points. The quick-replace Load-N-Go™ smart ribbons have the added benefit of being eco-friendly, using less plastic and more biodegradable material than competing brands. Print Touch™ uses Near Field Communication (NFC) to instantly retrieve helpful information about the ZXP Series 1 from any NCF-enabled smart device.

Compact Size and Network Manageable

A small footprint allows the ZXP Series 1 to fit in the tightest workspaces, making it the right choice when space is limited. Its compact and durable design, and advanced network printer management software tools, make the ZXP Series 1 a perfect for multiple small office installations, or large deployments of distributed card printers.

No Compromise High Quality Cards

You can count on the ZXP Series 1 to print clear, sharp and colour-rich images when you need them, and where you need them. Its optional magnetic stripe encoding, Ethernet connectivity, and support for multiple card thicknesses permit the ZXP Series 1 to meet a variety of business and ID card needs.

Ideal for These Applications

ID and Access Control Cards

- Corporate photo or employee ID cards
- Access control cards, Time and attendance cards
- Visitor and contractor badges
