

MATRIX[®] 530

DUPLEX

MX-530 DP DOUBLE SIDED LAMINATING SYSTEM

Matrix[®] MX-530 Duplex will halve your production time, laminating both sides of the sheet at the same time.

KEY FEATURES

- Pneumatic pressure
- Laminate both sides at the same time
- Retrofits to the MX-530
- Easy-to-use control panel
- Anti-curl technology
- Semi-automatic feed
- Automatic separator

GREAT FOR USE IN

- Commercial printers
- Digital printers
- Copy and print shops

IDEALLY SUITED FOR

- Business cards
- Menus
- Book covers
- Brochures
- Flyers

and many more...

Design

The new Matrix Duplex is an incredibly cost-effective system that allows printers to laminate single-side, double-side and encapsulate their work, in-house.

Available as either a full system or a modular retrofit for the multilingual MX-530, the Duplex will laminate both sides of the printed sheet at the same time, halving your production time. Whether you gloss the front and matt the back, or use Anti-scratch film on both sides of the print, changing rolls takes a matter of minutes.

The Duplex option is produced in Britain which shortens our supply chains and lead times. We've used the highest quality components within the system, including Omron switches, Schneider electrics and British built Bambi compressors.

Specifications

MX-530 DP

Max. Laminating Speed (m/ft/min)	10m/33ft
Max. Lamination Film Width (mm/inches)	500mm/20"
Minimum Paper Thickness (gsm/lbs)	100gsm +/-68lbs +**
Maximum Sheet Width (mm/inches)	550mm/22"
Warm-up Time (mins)	10
Temperature Range (°C/°F)	0-140°C/32-284°F
Power Supply (V)	220/240
Power Supply Required (Amps)	32
Power Consumption (W)	4500
Overall Dimensions (mm/inches)	900x2050x1400mm/35x81x55"
Gross Machine Weight (kg/lbs)	250kg/550lbs
Warranty*	1 year

- 1 Single Side Lamination
- 2 Double Side Lamination
- 3 Encapsulation
