

Table-top Paper Folder

PF-330

Automatic Setting for International+American size

The PF-330 has a large capacity paper feed tray stacking 500 sheets of 60g/m² papers, which is the big advantage for operators. You do not need to stack papers very often. You will see the difference among the same range of paper folders in the markets.

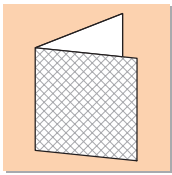

Pretty and compact design is just suitable for your office. Six types of standard folds are pre-set. Quite simple operation is just convenient for anyone at your office.

Place sheets on the paper feed tray and select fold type, and push on the start button - that's all you have to do. No complicated works are needed. When the very last sheet is fed, the machine will stop automatically. The PF-330 surely helps your paper folding works not only at your mailing department, but also at schools, churches and copy shops.
