# UCHIDA CARD CUTTER AEROCUT NANO

# AeroCut nano

## Your first AeroCut - The most reliable & versatile card cutter

UCHIDA AeroCut nano is the high quality entry-model card cutter that can cut & cross cut prints by one pass. The AeroCut nano is an ideal solution for any digital presses to produce multiple sizes cards as it can take paper stocks up to 330(W)x488(L)mm, 350gsm. The AeroCut nano is equipped with stable air suction feeding mechanism to finish digital prints beautifully and precisely without any adjustments.

Designed, built and inspected in Japan. Japanese engineering and craftsmanship made the AeroCut nano best of all card cutters.

## Best features of the nano

### Stable feeding mechanism.

The AeroCut nano is equipped with stable upper-belt air suction feeding mechanism which can take wide range of paper stocks, sheet sizes from 210(W)x210(L) to 330(W)x488(L)mm and paper weights from 120 to 350gsm. The feed table elevates to separate digital stocks to avoid mis-feeding, damages and roller-marks on prints.

The nano also has a double-feed detection sensor to avoid wasting valuable prints. In addition, it's cut-mark sensor read image drifts and registrate to finish every sheet beautifully. There is also an adjustment skewed prints.

### Unique job settings with \*InstaSet bar and touch screen.

The AeroCut nano has 2 single blade margin slitters and 2 double blade gutter slitters. The positions of these slitters can be easily adjusted manually without any tools. UCHIDA's unique InstaSet bar indicates and fixes slitter positions accurately. By changing the InstaSet bar or sides of it, wide variety of jobs can be finished at comparatively low additional cost to "module type" machines. UCHIDA also prepares build-to order bespoke InstaSet bar for odd size jobs as you like. While widths of cards are fixed by InstaSet bar, the lengths of cards, lead edge and gutters can be easily programmed via smart touch screen. In addition to 16 pre-programmed jobs, 40 customised jobs can be stored into the machine.

### User-friendly operation, perfect outputs.

UCHIDA AeroCut series have been loved for their user-friendliness - of course the nano is designed that anyone can produce perfect outputs. The simple touch screen and InstaSet bar settings are intuitive. The self-sharpening slitter blades and the guillotine ensure beautiful finishing every time for long terms. Your workspace will be kept always clean as the gutters are automatically deflected into the waste bin, and the outputs are collected and stacked in the flexible stacking tray.

## Specifications

<b>Basic functions</b>	Slit, cross cut
<b>Feedable paper size</b>	210(W)x210(L) to 330(W)x488(L)mm
<b>Minimum finished size</b>	85(W)x50(L)mm
<b>Paper weight</b>	120 to *350gsm *Depending on paper quality
<b>Speed</b>	126 business cards/min.
<b>Feeding mechanism</b>	Upper belt air suction feed
<b>Features</b>	Quick & easy tool-free slitter position settings with *InstaSet bar Skew adjustment Cut-mark registration Double feed detection Detachable Machine table with waste bin Intuitive touch screen operation 16 preset jobs + 40 customized job memories
<b>Dimensions</b>	565(W)x632(D)x963(H)mm
<b>Footprint</b>	1190(W)x800(D)x1540(H)mm
<b>Power source</b>	100-240VAC, 50/60Hz, single phase
<b>Power consumption</b>	100W
<b>Net weight</b>	70kgs (with machine table)

<b>*InstaSet bar (Standard)</b>	A: SRA3/A3/A4 to 90mm width business cards B: SRA3/A3/A4 to 85mm width business cards
<b>(Option Ver.1)</b>	C: SRA3 to A3/A4 D: SRA3 to A5/A6
<b>(Option Ver.2)</b>	E: A3 to A4/A5 F: A3 to A6
<b>Bespoke bar</b>	Build-to-order InstaSet bar. Up to 4 slitter unit slots on one side - positions can be customized
