

VidiU PRO

Premium Streaming Simplified

Live from Anywhere to Everywhere

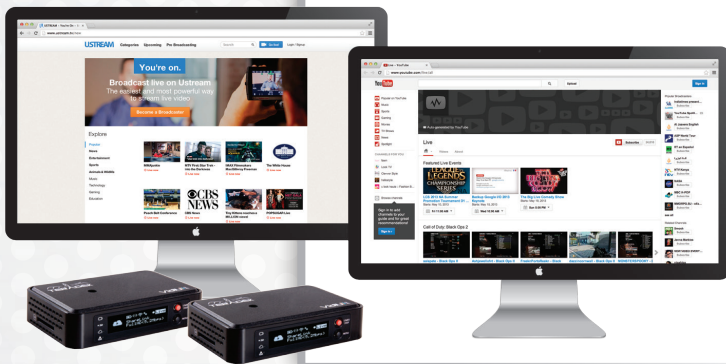

VidiU Pro delivers high definition live streaming video with the quality and reliability expected in traditional HD broadcast. Teradek's latest ShareLink™ technology ensures the bandwidth needed to stream HD content from anywhere, to everywhere.

ShareLink™ integration for ultimate connectivity

ShareLink™ allows you to achieve maximum bandwidth and ultimate reliability by bonding multiple Internet connections from different sources. Use any combination of interfaces: Ethernet, WiFi, a USB Modem even have your friends contribute up to 4 iPhone cellular connections*. With the robust connectivity of ShareLink™ your HD live video feed reaches your audience every time. ShareLink™ is available as a subscription plan accessed through the VidiU App or my.Teradek.com.

Go Live to Any Streaming Platform

Broadcast your events on the most popular, natively integrated streaming platforms like Ustream, Livestream, Wowza, Twitch and YouTube Live, or as manual RTMP address. VidiU Pro is compatible with virtually every streaming platform, so you can choose where you go live, whenever you like, wherever you like.

Where do you VidiU?

Connect, configure, go live! VidiU Pro accepts any HDMI camera source and is configurable via Bluetooth using your tablet or smartphone. Download the free VidiU App on your iOS or Android device for complete control. Roam cable-free for up to two hours of internal Li-Ion battery*. While you're at it, record your stream to VidiU Pro's built-in SD port for archive, quick edits and redistribution*.

*Standard data rates may apply

**Battery life varies by use and configuration

***Recorded video file bitrate and resolution match encoded stream quality
