LOFT CONVERSIONS - A PRACTICAL APPROACH & UPDATE TO THE BUILDING REGULATIONS

The guidance set out in the government's Approved Documents is usually adopted for most loft conversions. However, this guidance is not the only way to comply with the relevant Building Regulations.

This seminar will cover the following:

- Alternative solutions that can help retain historical features whilst also saving money (for example, retaining existing doors)
- How to achieve modern open plan layouts that fully meet the requirements of the Building Regulations
- Ways of ensuring compliance in structure, Fire Safety, stairways and insulation that can make your projects more cost-effective

Our speaker will follow on with an update on the challenges and changes of the Building Regulations.

Tuesday 12 September 2017

The Sky Box 1

Watford Football Club

Vicarage Road

Watford

WD18 0ER

jhai will provide Building Control for over **17,000** construction projects this year alone, helping architects, builders, developers and homeowners across England and Wales comply with Building Regulations as efficiently and as profitably as possible.
