CLEANING SEALING & AFTERCARE

MOULDEX TECHNICAL DATA SHEET

REF: 25/.5 June 18

LTP MOULDEX

Grout Cleaner

Kills & removes mould spores, fungus & algae from grouting including the surface of silicone seals and other damp places.

Antibacterial action helps prevent re-growth.

Formulated to cling to surfaces and remove mould spores, fungus, algae and moss from grouting, the surface of silicone seals and other damp places. Antibacterial properties help to prevent re-growth. Ideal for bathrooms and kitchens. Suitable for inside and outside use. Bleaching action helps restore white grouting to its original colour.

Directions for use

For application and cleaning tools see LTP website.

SHAKE WELL BEFORE USE. Surfaces to be treated should be completely dry before application. Always test in an inconspicuous area before general use. Hold upright and spray 5-10 cm from surface. Leave for 45 minutes. Apply a little water and agitate with a stiff brush to release dirt and grime. Rinse thoroughly using a sponge and water.

Stubborn stains and most silicones or elastic grouting will require a longer treatment, in which case apply and leave on surfaces overnight. In case of contact with metals, fabrics and painted surfaces rinse with water immediately.

Do not use with acid based residual grout removers or other acid based cleaners.

Can be used on natural stone and coloured grouting, however always test on an inconspicuous area before general application.

Coverage

5-15 m2 depending on size of tile.

Storage information

KEEP UPRIGHT in a cool dry place. **Shelf life**: Use within 6 months of purchase for optimum results.

Notes

Important: FOOD ESTABLISHMENTS - Equipment and surfaces subjected to direct food contact must be thoroughly rinsed with potable water after cleaning with this product. Avoid contamination of food during use. Do not store in food processing or food storage area.

Health, Safety & Environmental

Contains: SODIUM HYPOCHLORITE 2.52% ww

STATUTORY CONDITIONS OF APPROVAL RELATING TO USE

For use only as a surface biocide

Spray onto surfaces from a distance of 10cm

Apply 33-100ml of product per sq/m (each trigger pull releases 0.7-0.9ml of product

Users must comply in full with all their legal responsibilities under The Control of Pesticides Regulations 1986 (as amended), including complying with all Conditions of Approval

Read all precautions before use

HSE No: 9778

Contains: <5% anionic surfactants. <5% non ionic surfactants. <5% sodium hypochlorite
