

Resin, Polymer & Epoxy Residue Remover

Removes all types of resin, grout polymer & epoxy residues

Interior & exterior use

A low odour non caustic treatment that softens residues left by jointing compounds and grouts making removal from the surface of natural stone, glazed ceramics and porcelain much easier.

Directions for use

Preparation:

Ensure that the surface to be treated is completely clean and dry. If necessary, first wash surfaces with **ECOPROTEC Stone & Tile Intensive Cleaner**. Rinse well with water to finish.

Removing Residues:

Apply generously by dabbing on with a cloth or brush. Work in manageable areas of no more than 5 sq metres and do not brush out. Leave for up to 30 minutes. Do not allow the solution to dry out. If drying should occur within 30 minutes apply a little more solution to keep it wet. Use a stiff short haired brush or emulsifying pad to remove softened coating from the surface. Repeat the process if unwanted material remains. If you are unsure of correct application methods, test on an inconspicuous area, prior to general application.

If removing residues from epoxy grout; apply making sure to avoid prolonged contact with the joint as well. This solution should not drip if used on vertical surfaces. However protect acrylic & other sensitive plastic surfaces such as baths and shower trays from contact.

Coverage: M² per application

	1 LTR	5 LTR	25 LTR
Surface cleaning	10m ²	50m ²	N/A
In extreme cases	3m ²	15m ²	N/A

Storage information

Store in a cool, dry, frost free environment
Shelf life up to 2 years for un-opened containers

Other

Do not apply during rain, frost, or when surface and air temp is under 5°C or over 30°C. Use gloves and protective goggles if there is a risk of direct contact or splashing.

Empty containers are recyclable.

Clean application tools and brushes with water after use.

Once cleaned: Protect porous stone and porcelain with **ECOPROTEC Natural Finish Stone Sealer** or **ECOPROTEC Colour Enhancing Stone Sealer**

Health, Safety & Environmental

CONTAINS: benzyl alcohol, alcohol ethoxylate

Harmful if swallowed

Harmful if inhaled.

Keep out of reach of children. Avoid breathing fume, vapours, mist. Wash hands and other exposed areas thoroughly after handling. Do not eat, drink or smoke when using this product. Use only outdoors or in a well-ventilated area.

IF SWALLOWED: Call a doctor a **POISON CENTRE** if you feel unwell. **IF INHALED:** Remove person to fresh air and keep comfortable for breathing. Call a doctor if you feel unwell. Rinse mouth.

Dispose of contents/container to a licensed waste centre in accordance with local/regional/national/international regulations.

WARNING

This information is offered without guarantee. The material should be used so as to take account of the local conditions and the surfaces to be treated. In case of doubt, the product should be tried out in an inconspicuous area
