

THE NEW ISEKI SF224 & SF235 OUT-FRONT COLLECTOR MOWERS

The New ISEKI SF224 and SF235 are high performance out-front collector mowers.

A class leading, turbine driven, 950 litre collector combined with either 54" or 60" mower decks, ensures highly productive grass cutting and collection in wet or dry conditions.

When full it can be emptied at any height upto 2125mm. Belt-free mower decks and easy access service items simplify maintenance and increasing productivity.

**For more details on these mowers and the rest of the ISEKI range
