9.1.3	When an error message appears.....	9-5
9.2	When the Touch Panel is not visible .....	9-6
9.3	When printing quality has deteriorated.....	9-7
9.4	When a message appears to replace consumables or carry out cleaning .....	9-11
9.4.1	About Imaging Unit .....	9-11
9.4.2	About Toner Cartridge .....	9-11
9.4.3	About Waste Toner Bottle.....	9-14
9.5	Replacing a Staple Cartridge .....	9-16

## **Safety information**

# 1 Safety information

## 1.1 Introduction

This [Quick Guide] uses illustrations to describe operating procedures for the most commonly used functions in an easy-to-understand way.

Start by using this manual to become proficient with the useful functions that this machine offers.

For details on the various functions, refer to the User's Guides on the User's Guide DVD included with this machine.

In order to operate the machine safely and properly, be sure to read the safety information on page 1-5 of this manual before use.

In addition, this manual contains the following information. Be sure to read the manual before using the machine.

- Items that must be observed to use the machine safely
- Information regarding product safety
- Precautions when using the machine

The illustrations and screens used in this manual may appear slightly different from views of the actual equipment and screens.

### **Tips**

- Please keep this manual as well as the attached DVD in a safe place where you can access them easily.

## 1.2 Environmental information

### Environmental benefits of power management

Electricity consumption of a device depends on both its properties and the way of using the device.

Suitable power management setting offers you resource saving usage way. By setting the time to go into power saving modes (e.g. sleep mode) shorter (or optimal), electricity consumption can be reduced.

### Recycled paper

This product can print on recycled paper and environmental stewardship initiatives certified paper which complies with European standard EN 12281 as well as virgin paper. In addition it can print on lighter paper, 64g/m<sup>2</sup> for example. Using such light paper contributes to resources-saving.

### Duplex printing

With a product which has a duplex unit, you can print on both sides of paper automatically.

Using this function leads to reducing consumption of natural resources and your cost.

Attached printer driver provides this duplex printing function as initial setting in your computer (The setting can be changed after installation manually).

## 1.3 Safety information

This section contains detailed instructions on the operation and maintenance of this machine. To achieve optimum utility of this device, all operators should carefully read and follow the instructions in this manual.

Please read the following section before connecting the machine to the supply. It contains important information related to user safety and preventing equipment problems.

Make sure that you observe all of the precautions that appear in different sections of this manual.

Reference

- Some parts of the contents of this section may not correspond with the purchased product.

### Warning and precaution symbols

Be sure to observe the safety precautions.

This manual contains the instructions that should be strictly observed at all times to prevent injury to yourself and other persons as well as damage to property.

Injuries and damage that might be caused by using the product improperly are classified according to the following symbols.

Pictorial indication	Description
 WARNING	Improper handling can cause serious injury or death.
 CAUTION	Improper handling can cause minor injury or damage to houses and property.

These are some of major exemplary graphical symbols.

Graphic symbols	Descriptions	Graphic symbols	Descriptions	Graphic symbols	Descriptions
	General prohibition		Do not disassemble		Do not touch
	General instruction		Ground/Earth		Unplug from outlet
	General precaution		High temperature		Electrical shock hazard

### Power source connection

#### WARNING

Do not use any power cord other than the one supplied in the package or attached on the products. If a power cord is not supplied, use only the power cord and plug that are specified in the user documentation. Failure to use this cord could result in a fire or electrical shock. If the power cord supplied in the package cannot be used in the country where this product was sold, use a power cord that meets the following conditions or contact your Technical Representative. <ul style="list-style-type: none"> <li>The power cord has voltage and current rating appropriate for the rating plate on this machine.</li> <li>The power cord meets regulatory requirements for the area.</li> <li>The power cord is provided with grounding pin/terminal.</li> </ul>	
Do not use the power cord to other products. Failure to do that could result in a fire or electrical shock.	
Do not scratch, abrade, place a heavy object on, heat, twist, bend, step on, pull on, or damage the power cord. Use of a damaged power cord (exposed core wire, broken wire, etc.) could result in a fire or breakdown. Should any of these conditions be found, immediately turn OFF the power switch, unplug the power cord from the power outlet, and then call your authorized service representative.	
Do not use the power source voltage other than being specified on the machine. Failure to do that could result in a fire or electrical shock.	

**⚠ WARNING**

Do not use a multiple outlet adapter to connect any other appliances or machines. Use of a power outlet for more than the marked current value could result in a fire or electrical shock.

Do not use an extension cord. Use of an extension cord could cause a fire or electric shock. If the power cord furnished with the product is not long enough to be plugged into a wall outlet, contact your Technical Representative.

Do not unplug and plug in the power cord with a wet hand, as an electrical shock could result.

Plug the power cord all the way into the power outlet. Failure to do this could result in a fire or electrical shock.

Make sure to ground this product. (Connect the power cord to an electrical outlet that is equipped with a grounding terminal.) Failure to do so and an unlikely event of leakage could result in a fire or electrical shock.

**⚠ CAUTION**

The outlet must be near the equipment and easily accessible. Otherwise you can not pull out the power plug when an emergency occurs.

Do not place any objects around the power plug, as the power plug may be difficult to pull out when an emergency occurs.

Do not tug the power cord when unplugging. Pulling on the power cord could damage the cord, resulting in a fire or electrical shock.

Remove the power plug from the outlet more than one time a year and clean the area between the plug terminals. Dust that accumulates between the plug terminals may cause a fire.

**Installation****⚠ WARNING**

Keep this bag away from babies and children. Do not use in cribs, beds, carriages, or playpens. The thin film may cling to nose and mouth and prevent breathing. This bag is not a toy.

Do not place a flower vase or other container that contains water, or metal clips or other small metallic objects on this product. Spilled water or metallic objects dropped inside the product could result in a fire, electrical shock, or breakdown.

Should a piece of metal, water, or any other similar foreign matter get inside the product, immediately turn OFF the power switch, unplug the power cord from the power outlet, and then call your Technical Representative or your authorized service representative.

Make sure that the power cord is placed on a site in which no person would step on or trip over it. Stepping on or tripping over the power cord could heat the power cord, resulting in a fire or electric shock.

**⚠ CAUTION**

<If instructed to use fixing legs>

When the product has been installed, fix the product using the fixing legs. Not using the fixing legs could cause the product to move or topple over.

Do not place the product in a dusty place, or a site exposed to soot or steam, near a kitchen table, bath, or a humidifier. A fire, electrical shock, or breakdown could result.

Do not place this product on an unstable or tilted bench, or in a location subject to a lot of vibration and shock. It could drop or fall, causing personal injury or mechanical breakdown.

Do not let any object plug the ventilation holes of this product. Heat could accumulate inside the product, resulting in a fire or malfunction.

**⚠ CAUTION**

Whenever moving this product, be sure to disconnect the power cord and other cables. Failure to do this could damage the cord or cable, resulting in a fire, electrical shock, or breakdown.

When moving this product, always hold it at the locations specified in the User's Guide or other documents. If the unit is moved while held at locations other than those specified, it may fall, causing severe personal injury.

**Using the product****⚠ WARNING**

Do not modify this product, as a fire, electrical shock, or breakdown could result. If the product employs a laser, the laser beam source could cause blindness.

Do not attempt to remove the covers and panels which have been fixed to the product. Some products have a high-voltage part or a laser beam source inside that could cause an electrical shock or blindness.

Do not keep using this product, if this product becomes inordinately hot or emits smoke, or unusual odor or noise. Immediately turn OFF the power switch, unplug the power cord from the power outlet, and then call your Technical Representative or your authorized service representative.  
If you keep on using it as is, a fire or electrical shock could result.

Do not keep using this product, if this product has been dropped or its cover damaged. Immediately turn OFF the power switch, unplug the power cord from the power outlet, and then call your Technical Representative or your authorized service representative. If you keep on using it as is, a fire or electrical shock could result.

Do not use flammable sprays, liquids, or gases inside or near this machine. Do not clean the inside of this machine using a flammable gas duster. A fire or explosion could result.

<If an RFID module (limited only to 13.56 MHz) for use in inside-the-machine proximity communication or electromagnetic induction heating (IH) technology (limited only to 20.05 kHz to 100 kHz) is being used>

This machine generates a weak magnetic field.

If you experience any unusual symptoms with your implantable medical equipment (cardiac pacemaker, etc.) while near the machine, move away from the machine and see a doctor immediately.

Please call your Technical Representative or your authorized service representative if you do not understand the purchased product corresponds or not.

<If a non-contact IC card reader is being used>

If you use an implantable medical equipment (cardiac pacemaker, etc.), do not bring the IC card reader close from the implant within 12 cm at all times.  
The radio waves may affect implantable medical equipment (cardiac pacemaker, etc.) operations.

**⚠ CAUTION**

Using this product in a poorly ventilated room for a long time or producing a large volume of copies or prints may cause the odor of exhaust air from the machine. Ventilate the room well.

The inside of this product has areas subject to high temperature, which may cause burns. When checking the inside of the unit for malfunctions such as a paper misfeed, do not touch the locations (around the fusing unit, etc.) which are indicated by a "Caution HOT" caution label. A burn could result.

Unplug the product when you will not use the product for long periods of time.

When using the machine, do not look at the light of the lamp for a prolonged time. Eyestrain could result.

Do not use stapled paper, conductive paper (such as silver paper or carbon paper) or treated heat-sensitive/inkjet paper, otherwise a fire may result.

## Consumables

### WARNING

Do not throw toner or a container that contains toner (e.g., toner cartridge, developing unit and Waste Toner Box) into an open flame. The hot toner may scatter and cause burns or other damage.

### CAUTION

Do not leave toner-related parts (e.g., toner cartridge, developing unit and Waste Toner Box) within easy reach of children. Licking any of these parts or ingesting toner could damage your health.

Do not store toner-related parts (e.g., toner cartridge, developing unit and Waste Toner Box) near devices susceptible to magnetism, such as precision equipment and data storage devices, otherwise they may malfunction. They could cause these products to malfunction.

Do not force open the toner-related parts (e.g., toner cartridge, developing unit and Waste Toner Box). If toner tumbles from the toner bottle, take utmost care to avoid inhaling it or even getting skin contact.

If toner lands on your skin or clothing, wash thoroughly with soap and water.

If you inhale toner, move to a place with fresh air and gargle with a lot of water repeatedly. Should you get symptoms such as coughing, seek medical advice.

If you get toner into your eyes, immediately rinse them with running water for over 15 minutes. Seek medical advice if irritation persists.

If you swallow toner, rinse out your mouth and drink a few glasses of water. Seek medical advice if necessary.

Never touch the electrical contacts of the units (e.g., toner cartridge and developing unit), as an electrostatic discharge may damage the product.

Before handling, see the user documentation for the safety information.

<If instructed to replace the fusing unit>

The fusing section is extremely hot. Before replacing the fusing unit, be sure to open doors and covers of the machine. Then, leave the machine to stand idle for a specified period of time and make sure that the fusing section has cooled down to room temperature. Failure to follow these instructions could result in a burn.

## 1.4 Regulation notices

### About certified model name

This product is certified by the following model name:  
OLIVETTI branded model d-COLOR MF3302.

### CE Marking (Declaration of Conformity) for users of the European Union (EU)

Hereby, Olivetti S.p.A. declares that the radio equipment models specified above are in compliance with Directive 2014/53/EU.

The full text of the EU declaration of conformity is available at the following internet address:  
"<https://www.olivetti.com/en/support/download-certificates/>".

Maximum radio-frequency power transmitted in the frequency band (EIRP):

Module Name, Option	Frequency Band	Radiation. Power
<b>UK-221</b> includes approved Wireless module, MODEL WN4521L*:	2.4 GHz	Max. 20 dBm
	5 GHz	Max. 23 dBm
<b>EK-P09</b> includes approved Wireless module, MODEL MBH7BLZ02:	2.4 GHz	Max. 3 dBm

Note: 5 GHz may not be available

This radio equipment is restricted to indoor use only. Outdoor use is prohibited.

This restriction applies to all the countries listed in the table below.

AT	BE	BG	CH	CY	CZ	DE	DK	EE
EL	ES	FI	FR	HR	HU	IE	IS	IT
LI	LT	LU	LV	MT	NL	NO	PL	PT
RO	SE	SI	SK	TR	UK			

### GS Certification

This device is not intended for use in the direct field of view at visual display workplaces. To avoid incoming reflexions at visual display workplaces this device must not be placed in the direct field of view.

Das Gerät ist nicht für die Benutzung im unmittelbaren Gesichtsfeld am Bildschirmarbeitsplatz vorgesehen. Um störende Reflexionen am Bildschirmarbeitsplatz zu vermeiden, darf dieses Produkt nicht im unmittelbaren Gesichtsfeld platziert werden.

## Electromagnetic Interference

This product must be used with a shielded interface cable.

The use of non-shield cables is likely to result in interference with radio communications and is prohibited under CISPR and local rules.

## Laser safety

This is a digital machine which operates using a laser. There is no possibility of danger from the laser provided the machine is operated according to the instructions in the manuals.

Since radiation emitted by the laser is completely confined within protective housing, the laser beam cannot escape from the machine during any phase of user operation.

This machine is certified as a Class 1 laser product per IEC 60825-1: 2014: This means the machine does not produce hazardous laser radiation.

## Internal laser radiation

Maximum Average Radiation Power: 8.3  $\mu$ W at the laser aperture of the print head unit.

Wavelength: 770-800 nm

This product employs a Class 3B laser diode that emits an invisible laser beam.

The laser diode and the scanning polygon mirror are incorporated in the print head unit.

The print head unit is NOT A FIELD SERVICE ITEM:

Therefore, the print head unit should not be opened under any circumstances.

## CDRH regulations

This machine is certified as a Class 1 Laser product under Radiation Performance Standard according to the Food, Drug and Cosmetic Act of 1990. Compliance is mandatory for Laser products marketed in the United States and is reported to the Center for Devices and Radiological Health (CDRH) of the U.S. Food and Drug Administration of the U.S. Department of Health and Human Services (DHHS). This means that the device does not produce hazardous laser radiation.

The label shown on page 1-11 indicates compliance with the CDRH regulations and must be attached to laser products marketed in the United States.

---

### **⚠ WARNING**

**Use of controls, adjustments or performance of procedures other than those specified in this manual may result in hazardous radiation exposure.**

- This is a semiconductor laser. The maximum power of the laser diode is 25 mW and the wavelength is 770-800 nm.
-

## For European users

### **⚠ WARNING**

**Use of controls, adjustments or performance of procedures other than those specified in this manual may result in hazardous radiation exposure.**

- This is a semiconductor laser. The maximum power of the laser diode is 25 mW and the wavelength is 770-800 nm.

## Laser safety label

A laser safety label is attached to the outside of the machine, as shown below.

or/and  
complies with 21 CFR 1040.10 and 1040.11  
except for deviations pursuant to  
laser notice no. 50, dated June 24, 2007.

## Ozone release

Locate the Machine in a Well-Ventilated Room

A negligible amount of ozone is generated during normal operation of this machine. An unpleasant odor may, however, be created in poorly ventilated rooms during extensive machine operations. For a comfortable, healthy and safe operating environment, it is recommended that the room be well ventilated.

Placer l'appareil dans une pièce largement ventilée

Une quantité d'ozone négligable est dégagée pendant le fonctionnement de l'appareil quand celui-ci est utilisé normalement. Cependant, une odeur désagréable peut être ressentie dans les pièces dont l'aération est insuffisante et lorsque une utilisation prolongée de l'appareil est effectuée. Pour avoir la certitude de travailler dans un environnement réunissant des conditions de confort, santé et de sécurité, il est préférable de bien aérer la pièce où se trouve l'appareil.

## Acoustic noise (for German users only)

Der höchste Schalldruckpegel beträgt 70 dB(A) oder weniger gemäß EN ISO 7779.

This symbol means: Do not dispose of this product together with your household waste!

Please refer to the information of your local community or contact our dealers regarding the proper handling of end-of-life electric and electronic equipments. Recycling of this product will help to conserve natural resources and prevent potential negative consequences for the environment and human health caused by inappropriate waste handling.

## For EU member states only

This product complies with RoHS (2011/65/EU) Directive.

## USB host

Connect USB devices (Memory, Authentication, Hub etc.) devices directly to the USB host. If an extension cable is used, electromagnetic interference could occur.

## Graphic symbols used on this machine

These are some of major exemplary graphical symbols.

Graphic symbols	Descriptions	Graphic symbols	Descriptions
	"ON" position		"OFF" position
	STAND-BY		push-push type switches
	Ground/Earth (Protective bonding terminal)		Ground/Earth (Protective earthing)
	CLASS II EQUIPMENT		Class II equipment with functional earthing
	Functional earthing		General precaution
	High temperature		Electrical shock hazard
	CAUTION moving fan blade		CAUTION DOUBLE POLE / NEUTRAL FUSING

## 1.5 Caution notations and labels

Safety precaution notations and labels appear on this machine at the following positions. Be very careful that an accident does not occur when operations such as removing paper jams and staple jams are performed.

**NOTICE**

*Do not remove caution labels or notations. If any caution label or caution notation is soiled, please clean to make legible. If you cannot make them legible, or if the caution label or notation is damaged, please contact your service representative.*

## 1.6 Special notice to user

### For Europe

The Facsimile has been confirmed to meet the standards (or requirements) ETSI for pan-European single terminal connection to the public switched telephone network (PSTN).

## 1.7 Space requirements

To ensure that machine operation, consumables replenishing, part replacement, and regular maintenance can easily be performed, adhere to the recommended space requirements detailed below.

For North America

For other

### NOTICE

Be sure to allow a clearance of 8 inches (200 mm) or more at the back of this machine for the ventilation duct.

## 1.8 Operation precautions

To ensure the optimum performance of this machine, observe the precautions described below.

### Power source

The power source requirements are as follows.

- Voltage fluctuation: Maximum  $\pm 10\%$  (at 110 to 127 V/220 to 240 V AC)
- Frequency fluctuation: Maximum  $\pm 3$  Hz (at 50 Hz/60 Hz)
- Use a power source with as little voltage or frequency fluctuations as possible.

### Operating environment

The environmental requirements for correct operation of the machine are as follows.

- Temperature: 50°F (10°C) to 86°F (30°C) with fluctuations of no more than 18°F (10°C) within an hour
- Humidity: 15% to 85% with fluctuations of no more than 10% within an hour

### Storage of copies

To store copies, follow the recommendation listed below.

- Copies that are to be kept for a long time should be kept where they are not exposed to light in order to prevent them from fading.
- Adhesive that contains solvent (e.g., spray glue) may dissolve the toner on copies.
- Color copies have a thicker layer of toner than normal black-and-white copies. Therefore, when a color copy is folded, the toner at the fold may peel off.

### Data stored in this machine

It is suggested to delete all data stored in all storage areas using the overwrite all data function to prevent leakage of data prior to transfer or disposal of the machine, or returning of the leased machine.

For details of the overwrite all data function, refer to the User's Guide. Contact your service representative before deleting data.

It is recommended to backup storage periodically as the measures for storage defect. For the detail information of storage backup, contact your service representative.

### Precautions for carrying the machine

Lifting the machine in an awkward position or transporting it in a poorly balanced position could result in personal injury. When transporting the machine, use an adequate number of persons and ensure that each person can take a good position without being excessively burdened.

## 1.9 Legal restrictions on reproduction

Certain types of originals must never be reproduced with the purpose or intent to pass reproductions of such originals off as the originals.

The following is not a complete list, but is meant to be used as a guide to responsible reproduction.

### <Financial Instruments>

- Personal checks
- Traveler's checks
- Money orders
- Certificates of deposit
- Bonds or other certificates of indebtedness
- Stock certificates

### <Legal Originals>

- Food stamps
- Postage stamps (canceled or uncanceled)
- Checks or drafts drawn by government agencies
- Internal revenue stamps (canceled or uncanceled)
- Passports
- Immigration papers
- Motor vehicle licenses and titles
- House and property titles and deeds

### <General>

- Identification cards, badges, or insignias
- Copyrighted works without permission of the copyright owner

In addition, it is prohibited under any circumstances to reproduce domestic or foreign currencies, or works of art without permission of the copyright owner.

When in doubt about the nature of an original, consult with legal counsel.

### **NOTICE**

*This machine provides the forgery prevention function in order to prevent financial instruments from being reproduced illegally.*

*We appreciate your understanding that printed images may infrequently have some noise or image data may not be stored under certain circumstances due to this forgery prevention function.*

## **Before using this machine**

## 2 Before using this machine

### 2.1 Environmental initiatives

The company continuously strives to reduce the negative environmental impacts of all stages of its business operations.

As part of such activities, the company is implementing resource-saving steps by reducing the number of pages in the User's Guide.

For the information necessary to operate the machine, please refer to the bundled User's Guide DVD (HTML format). This guide has an excellent search function.

Functions such as keyword search and filtering by purpose are very useful to help users find what they need to know.

### 2.2 Intended use of office MFP devices

#### Intended use

This Multi Function Product incorporates the functionality of multiple office devices in one. It is designed to be used as an office system for the following purposes:

- Print, copy, scan and fax documents.
- Use available finishing functions such as duplexing and stapling if appropriate options are installed.
- Store scanned documents on external USB memory devices; send scanned documents to network scan destinations such as FTP, WebDAV and E-mail.

The intended use also requires that:

- The system is used within the limits of device specifications and specifications of optional components,
- All safety instructions in the related user's guides are observed,
- Legal restrictions on reproduction (page 1-17) are observed,
- Inspection and maintenance instructions are adhered to,
- General, national and company safety provisions are observed.

#### Impermissible operating conditions

The system may not be operated if:

- Errors or damage have been discovered,
- Maintenance intervals have been exceeded,
- Mechanical or electrical functions do not work as they should.

#### Exclusion of liability

The manufacturer of the system assumes no liability for damages if the system was operated under impermissible conditions.

## 2.3 Target groups

The user's guides are intended for the following users of the system:

Target group	Description
User	Persons using the system for objectives described in "Intended use of office MFP devices" as well as managing system functions and consumables according to the assigned user rights.
Administrator	Persons managing consumables, system functions, users and access rights; adjusting system settings, and establishing network connections.

Everyone who uses this system must have read and understood the related user's guides.

## 2.4 Introduction to user's guide

The user's guide of this product consists of this manual and the HTML User's Guide.

This manual describes notes and precautions that should be followed in order to use this machine safely, and also provides information about basic functions and operation methods.

If you want to learn about more detailed functions or operation methods, refer to the HTML User's Guide included in the User's Guide DVD.

### Quick Guide

This document describes notes and precautions that should be followed in order to use this machine safely, and also provides information about basic functions and operation methods.

Be sure to read this guide before use.

### HTML User's Guide

This User's Guide is included in the User's Guide DVD.

The User's Guide provides basic and detailed information on the functions of this product and also explanations of other various setting functions.

## 2.5 Symbols and notations used in this manual

### **WARNING**

- Improper handling can cause serious injury or death.

### **CAUTION**

- Improper handling can cause minor injury or damage to houses and property.

### **NOTICE**

*This symbol indicates a risk that may result in damage to this machine or documents. Follow the instructions to avoid property damage.*

### **Tips**

- This symbol indicates supplemental information of a topic as well as options required to use a function.

### **Reference**

*This symbol indicates reference functions related to a topic.*

### **Related setting**

This shows the settings related to a particular topic for any user.

### **Related setting (for the administrator)**

This shows the settings related to a topic only for administrators.

Symbols/Notations	Description
✓	This check mark symbol shows a precondition of a procedure.
→	This symbol indicates a supplementary explanation of a procedural instruction.
[ ]	An item enclosed by brackets [ ] indicates a key name on the <b>Touch Panel</b> or computer screen, or the name of a user's guide.
<b>Bold text</b>	This presents a part name, product name, or option name.

## 2.6 Administrator password

The administrator password is set to [1234567812345678] by factory default. Try this password if the administrator password has not been changed.

Change the administrator password periodically.

## **How to use the HTML User's Guide**

## 3 How to use the HTML User's Guide

### About the HTML User's Guide

Select a desired function on the top page (Home), and check the details of the function.

Selecting [Introduction] on the top page (Home) allows you to view detailed methods for using the HTML User's Guide.

### Operating environment

Supported operating systems

- Microsoft Windows 7 (SP1)/Windows 8.1/Windows 10  
Apple Mac OS 10.9/10.10/10.11/10.12/10.13

Supported Web browsers

- Windows:  
Microsoft Internet Explorer 10/11 (Desktop version), Microsoft Edge, Firefox latest version, Google Chrome latest version
- Mac OS:  
Safari latest version

Display resolution

- 1024 × 768 pixels or more

#### Tips

- We recommend that you use the latest Web browser that is compatible with your operating system to help you use this machine more conveniently and comfortably.
- Check that JavaScript in your Web browser is enabled. The HTML User's Guide uses JavaScript for the page display and search functions.

**About this machine**

---

## 4 About this machine

### 4.1 Optional components

#### List of optional components

No.	Name	Description
1	Main unit	Scans the original in the scanner section, and prints a scanned image in the printer section. This unit is referred to as "this machine" or "the main unit" in the manual.
2	<b>Authentication Unit AU-102</b>	Performs user authentication by scanning vein patterns in the finger. The <b>Working Table WT-P03</b> is required to install the <b>Authentication Unit AU-102</b> .
3	<b>Authentication Unit AU-201S</b>	Performs user authentication by scanning information recorded on the IC card or NFC-compatible Android terminal. The <b>Mount Kit MK-P08</b> is required to install the <b>Authentication Unit AU-201S</b> . This unit can also be installed on the <b>Working Table WT-P03</b> .
4	<b>Working Table WT-P03</b>	Provides an area to temporarily place an original or other materials. This is also used when the <b>Authentication Unit AU-102</b> or <b>Authentication Unit AU-201S</b> is installed. The <b>Finisher FS-P04</b> can be installed as needed.
5	<b>Keyboard Holder KH-P02</b>	Install this holder to use an external keyboard. For details on external keyboards, contact your service representative.

No.	Name	Description
6	<b>Finisher FS-P04</b>	Staples the printed sheets. For staples, use <b>Staple Kit SK-501</b> . For details on how to use the <b>Finisher FS-P04</b> , refer to the HTML User's Guide.
7	<b>Keypad KP-P03</b>	It is equipped on the side of the <b>Control Panel</b> . Allows you to operate this machine or enter a number by using hardware keys.
8	<b>Paper Feed Unit PF-P25/PF-P22</b>	Adjust the height of this machine to suit your conditions. <b>Paper Feed Unit PF-P22</b> is only available in some areas.
9	<b>Paper Feed Unit PF-P21/PF-P20</b>	<b>Paper Feed Unit PF-P21</b> can contain up to 500 legal-size sheets. <b>Paper Feed Unit PF-P20</b> can contain up to 500 A4-size sheets. <b>Paper Feed Unit PF-P20</b> is only available in some areas.
10	<b>Desk DK-P05/DK-P04</b>	Used to install this machine on the floor. <b>Desk DK-P04</b> is only available in some areas.
11	<b>Clean Unit CU-202</b>	Collects small particles (UFP) generated in this machine to prevent them from escaping this machine. <b>Clean Unit CU-202</b> is only available in some areas.

### List of other optional components

The following options are built into this machine and are not shown in the figure.

No.	Name	Description
1	<b>Fax Kit FK-517</b>	Used to operate this machine as a fax machine.
2	<b>Local Interface Kit EK-P08</b>	The speaker and USB port are added.
3	<b>Local Interface Kit EK-P09</b>	Install this unit to link this machine with a Bluetooth LE-compatible iOS terminal. The speaker, USB port, and receiving device for Bluetooth LE communication are added.
4	<b>Local Interface Kit EK-P10</b>	Install this unit to link this machine with an NFC-compatible Android terminal. A receiving device for NFC communication is added.
5	<b>Local Interface Kit EK-P11</b>	Install this unit to use the remote diagnosis system. An RS-232C port is added.
6	<b>i-Option LK-116</b>	Allows you to add the virus scan function.
7	<b>Upgrade Kit UK-221</b>	Allows you to use this machine in a wireless network environment.
8	<b>Mount Kit MK-P08</b>	Required to have <b>Authentication Unit AU-201S</b> built in to the main unit.
9	<b>Mount Kit MK-P09</b>	Required to use the <b>Clean Unit CU-202</b> . <b>Mount Kit MK-P09</b> is only available in some areas.

## 4.2 Name of each component (main unit)

### Front/side

No.	Name	Description
1	<b>Control Panel</b>	Used to configure various settings in this machine.
2	<b>Automatic Document Feeder</b>	Automatically feeds and scans originals by page. This unit scans a 2-sided original by only requiring the paper be fed into the machine once without reversing. This unit is referred to as <b>ADF</b> in the manual.
3	<b>ADF Feed Cover</b>	Open this cover when clearing a paper jam in the <b>ADF</b> .
4	<b>Lateral Guide</b>	Adjust this guide along the width of the original.
5	<b>Original Tray</b>	Load the original face up in this tray.
6	<b>Original Output Tray</b>	The scanned original is fed out onto this tray.
7	<b>Document Stopper</b>	Used to prevent the output original from falling.
8	<b>Power Connection</b>	Connect the power cord to this inlet to supply power to this machine.
9	<b>Bypass Tray</b>	Used to print data on non-standard size paper or envelopes.
10	<b>Main Power Switch</b>	Press this switch to turn the machine on or off.
11	<b>USB Port (Type A) USB2.0/1.1</b>	Used to connect an external memory unit (USB memory unit) to this machine.
12	<b>Tray 1</b>	Allows you to load up to 500 sheets.
13	<b>Mobile Touch Area</b>	This area is used to associate this machine with an NFC-compatible Android terminal or an iOS terminal compatible with Bluetooth LE.
14	<b>Data Indicator</b>	Flashes or lights up to indicate the data receiving status on this machine.
15	<b>Output Tray</b>	Outputs printed pages.

## Rear side

This illustration shows the main unit with the optional **Fax Kit FK-517**.

No.	Name	Description
1	<b>Ethernet (LAN) Port (1000Base-T/100Base-TX/10Base-T)</b>	Connect to this port when using this machine as a network printer or network scanner.
2	<b>USB Port (Type B)</b>	Connect to this port when using this machine as a USB-connected printer.
3	<b>LINE (telephone line) Jack</b>	Used to connect a general telephone subscriber line.
4	<b>Jack for connecting a telephone (TEL)</b>	Used to connect a telephone cord.

### Tips

- The network port of this product is following No.1 and No.2. A port is activated when a network port inserts a cable.

## 4.3 Power supply

This machine provides the **Main Power Switch** and **Power** key.

No.	Name	Description
1	<b>Main Power Switch</b>	Turns the main power of this machine on or off. For details on how to turn the main power on or off, refer to page 4-7.
2	<b>Power</b> key	Switches this machine to the Power Save mode. This function reduces power consumption and has a greater power saving effect. For details on how to use the <b>Power</b> key, refer to HTML User's Guide.

### NOTICE

While printing, do not turn the **Main Power Switch** off or press the **Power** key. Otherwise, it may lead to a paper jam.

If the **Main Power Switch** is turned off or the **Power** key is pressed while this machine is running, the system deletes the currently loaded data or communicating data as well as queued jobs.

### Turning the power on and off

- 1 When turning the main power on, open the **Main Power Switch Cover**, and press | of the **Main Power Switch**.

The **Start** key lights up orange, and the start screen is displayed on the **Touch Panel**.

- 2 When turning the main power off, open the **Main Power Switch Cover**, and press ⏻ of the **Main Power Switch**.

### NOTICE

When restarting this machine, turn the **Main Power Switch** off and on again after 10 or more seconds have passed. Not doing so may result in an operation failure.

**About panels**

## 5 About panels

### 5.1 Control Panel

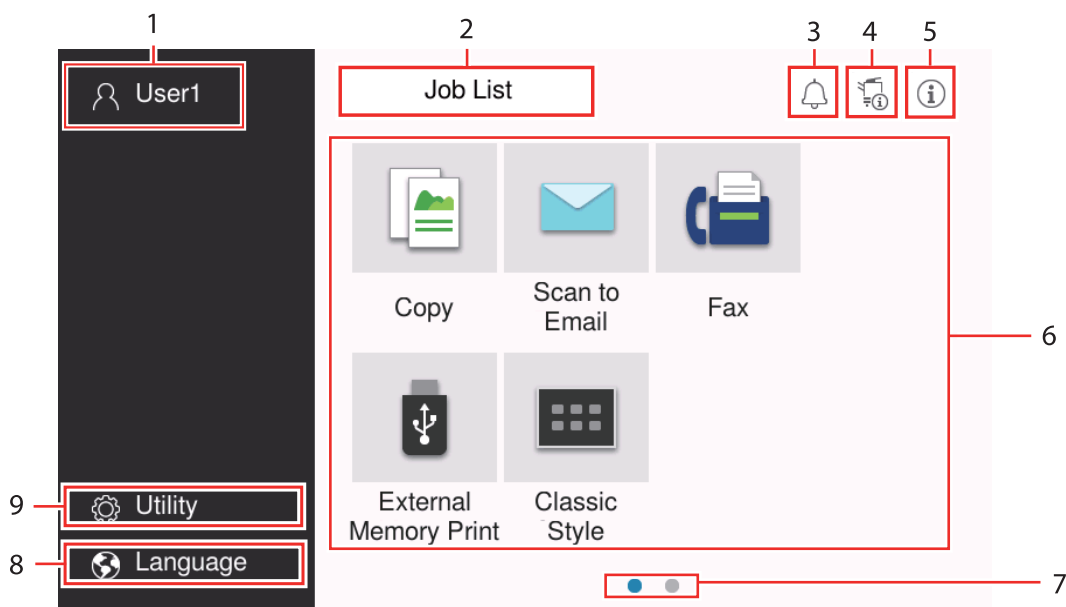

No.	Name	Description
1	<b>Touch Panel</b>	Displays setting screens and messages. Directly press this panel to carry out operations.
2	<b>Start</b>	Press this key to start an operation such as printing.
3	<b>Stop</b>	Press this key to temporarily stop an active print job. <ul style="list-style-type: none"> <li>To restart, press the <b>Start</b> key.</li> <li>To delete, select a target job in the currently stopped screen, and also tap [Delete].</li> </ul>
4	<b>Reset</b>	Returns the setting you entered or changed to the default.
5	<b>Access</b>	Use this key to perform authentication in the Login screen if user authentication or account track is installed on this machine. Pressing the <b>Access</b> key while logged in will log you out of this machine.
6	<b>Menu</b>	Displays the home screen.
7	<b>Power key</b>	Switches this machine to the Power Save mode. For details on how to use the <b>Power</b> key, refer to HTML User's Guide.
8	<b>Warning Indicator</b>	Indicates the status of this machine by the lamp color, flashing, or a lamp lighting up. <ul style="list-style-type: none"> <li>Flash (orange): Warning</li> <li>Light-up (orange): The machine is stopped.</li> </ul>

## 5.2 Touch Panel

### Home screen

The layout of the home screen is as follows.

No.	Name	Description
1	User/Account Name	This area displays the name of the current login user or the account name when User Authentication or Account Track is enabled.
2	[Job List]	Displays active or standby jobs. If necessary, you can check job logs or print a communication report. This list displays the operation status of the current job on the [Job List] key when it is running. If necessary, you can stop the active job using the Stop key displayed next to the [Job List] key.
3	Notification icon	You can check warnings or notices related to the status of this machine.
4	Device information icon	You can check the current date and time, free space in memory, and toner level. The corresponding device information is displayed when: <ul style="list-style-type: none"> <li>• A nonstandard USB flash drive is connected to this machine;</li> <li>• Device information logs are spooled;</li> <li>• Image logs are transferred;</li> <li>• This machine is in fax redial wait state;</li> <li>• This machine is receiving data;</li> <li>• This machine is sending data;</li> <li>• An E-mail server (POP) connection error occurs; or</li> <li>• The enhanced security mode is enabled.</li> </ul>
5	Information icon	Displays a message for users.
6	Function key	Displays shortcut keys assigned to any function. You can select the [Main Menu Default (Basic Style)] to change the shortcut keys to be displayed on the home screen.
7	Page Indicator	You can check the currently displayed page number.
8	[Language]	Temporarily changes the language to be displayed on the panel. This option is displayed when [Temporary Change Language Setting] is set to ON.
9	[Utility]	Configure settings of this machine or check the use status of this machine.

## 5.3 Login methods

### When user authentication is enabled:

When user authentication is enabled on this machine, the login screen is displayed. Enter the user name and the password, and perform user authentication.

- ✓ The contents of the login screen may vary depending on the authentication setting of this machine.
- ✓ If Public User Access (unregistered users) is enabled, you can tap [Used by public user] on the login screen to operate this machine without authentication.

- 1 Enter the user name and password.

- 2 When [Server Name] is displayed, select the server to perform authentication.
  - The default authentication server is selected by default.
- 3 When [Operation Rights] is displayed, select the login user's operation privileges.
  - To log in as a registered user, select [User].
  - To log in as an administrator, select [Administrator].
- 4 When [Authentication Method] is displayed, select the authentication method.
- 5 Tap [Login].
 

When authentication succeeds, you can operate this machine. The user name is displayed on the screen during login.

If the login screen for account track is displayed, perform account track after this. For details on the account track operation, refer to page 5-6.
- 6 When the target operation is completed, select the Access key (  ) to log out.
  - If this machine is left for a certain period of time during login (default: [1] min.), you are logged out automatically.
- 7 Tap [Yes] on the logout confirmation screen.

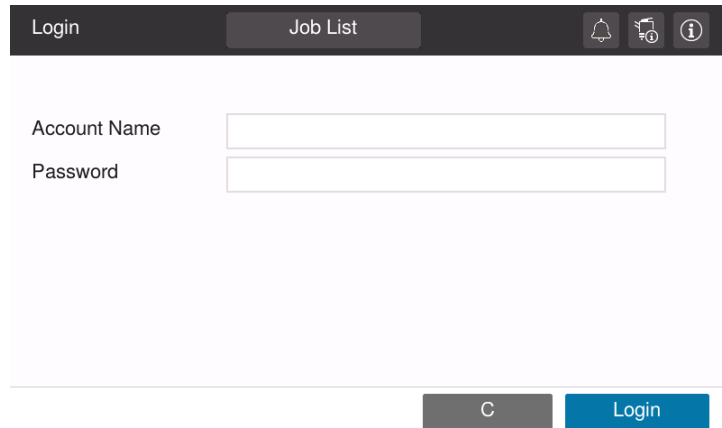

## When account track is enabled:

When account track is enabled on this machine, the login screen is displayed. Enter the account name and the password to perform account track.

- ✓ The contents of the login screen may vary depending on the authentication setting of this machine.

### 1 Enter the account name and password.

- When performing account track using only the password, the keypad is displayed on the login screen. If the password is numeral alone, it is possible to enter the password using the keypad. If the password contains a character, tap the [Password] entry area, and then enter the password.

### 2 Tap [Login].

When authentication succeeds, you can operate this machine. The account name is displayed on the screen during the log in process. When user authentication and account track are enabled together, the user name is displayed on the screen.

### 3 When the target operation is completed, select the Access key (⏏) to log out.

- If this machine is left for a certain period of time during login (default: [1] min.), you are logged out automatically.

### 4 Tap [Yes] on the logout confirmation screen.

## **Loading the original and paper**

## 6 Loading the original and paper

### 6.1 Load the original

The original loading methods are classified into two types: loading the original into the **ADF** (Automatic Document Feeder), and directly loading the original onto the **Original Glass**.

Select the appropriate one for your requirements.

#### 6.1.1 Loading the original into the ADF

This function is useful when you want to scan an original containing multiple pages, or a sheet original of different sizes.

- Place original pages so that the first one is at the top.
- Load the original with the scanning side facing up.
- Slide the **Lateral Guide** to suit the original size.
- Pull out the **Document Stopper** (1) to prevent the scanned original from falling.

#### 6.1.2 Placing the original on the Original Glass

This function is useful when you want to scan a small original such as a book, magazine, or business card.

- Place the original with the scanning side facing down.
- Align the original with the  mark at the left back of the **Original Glass**.

## 6.2 Loading paper

No paper setting is required because frequently used paper is loaded during general use.

This section describes how to use paper that is not usually loaded into a paper tray.

The methods for loading envelopes and postcards are as follows.

### 6.2.1 Loading paper in Tray1

Up to 500 sheets of plain paper can be loaded into **Tray 1**.

#### Applicable paper types

Plain paper, single-side-only paper, special paper, thick paper, postcard (4 × 6 (A6 Card)), letterhead, colored paper, envelope, label sheets, recycled paper, and coated paper

#### How to load paper

- 1 Pull out the tray.

#### NOTICE

Be careful not to touch the surface of the **Paper Feed Rollers** with your hand.

- 2 Slide the **Lateral Guide** to fit the size of the loaded paper.

- 3 Load paper into the tray with the print side facing up.

- 4 When you load paper other than plain paper or change the paper size, specify the paper type and paper size.

→ For details on how to specify the paper type and paper size, refer to the HTML User's Guide.

### 6.2.2 Loading paper into the Bypass Tray

When selecting a paper size other than for paper trays, use the **Bypass Tray**.

To use the **Bypass Tray**, specify the paper type and paper size.

#### Applicable paper types

Plain paper, single-side-only paper, special paper, thick paper, postcard (4 × 6 (A6 Card)), letterhead, colored paper, envelope, label sheets, recycled paper, and coated paper

#### How to load paper

- 1 Open the **Bypass Tray**.

#### NOTICE

Be careful not to touch the surface of the **Paper Feed Rollers** with your hand.

- 2 Load paper into the tray with the print side facing down.
  - Insert paper into the tray until their edges are pressed against the back.

### NOTICE

Do not load an excessive number of sheets such that the top of the stack is higher than the ▼ mark. If paper is curled, flatten it before loading it.

- 3 Slide the **Lateral Guide** to fit the size of the loaded paper.
- 4 Specify the paper type and paper size.
  - For details on how to specify the paper type and paper size, refer to the HTML User's Guide.

## 6.2.3 Loading envelopes

Precautions when using envelopes

- Remove air from the envelope(s), and securely press along the flap fold line.
- Do not use envelopes that have glue or release paper on the flap or the part covered by the flap on the body.
- The flap side of envelopes cannot be printed on.
- When loading envelopes with flaps opened, also select the standard size that matches them. You do not have to measure the size of the envelope with the flap opened to set the size as a custom-sized envelope.

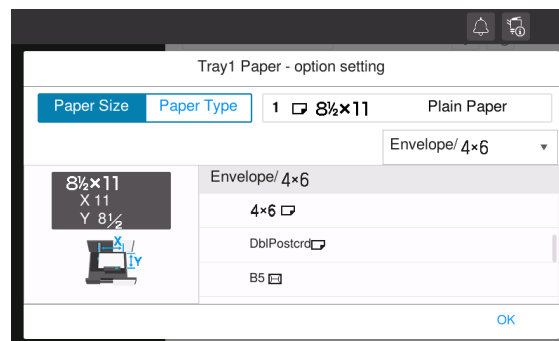

### For Tray 1

Up to 30 envelopes can be loaded into the tray.

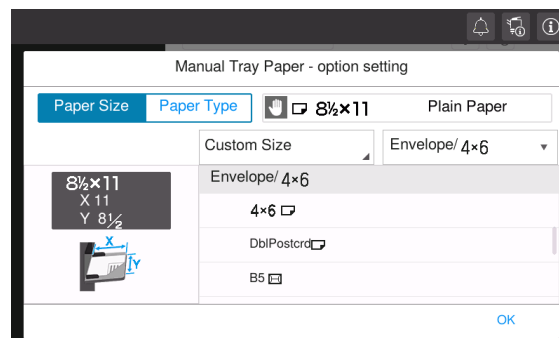

- Load envelopes with the flap part facing down.
- Align the **Lateral Guide** with the envelope size.
- Select the desired envelope size from [Envelop/4 × 6] ([Envelop/A6 Card]) of [Paper Size].

### For Bypass Tray

Up to 10 envelopes can be loaded into the tray.

- Load envelopes with the flap part facing up.
- Align the **Lateral Guide** with the envelope size.
- Select the desired envelope size from [Envelop/4 × 6] ([Envelop/A6 Card]) of [Paper Size].

### 6.2.4 Loading postcards

Precautions when using postcards

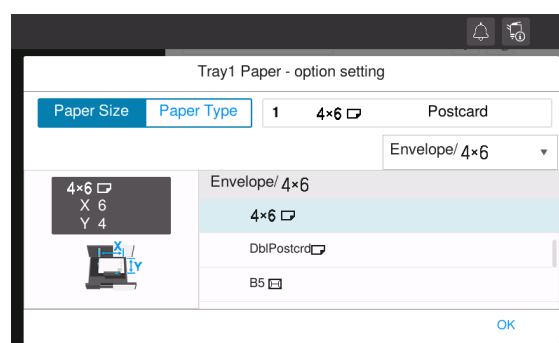

- When loading curled postcards, uncurl them.
- When using postcards other than 4 × 6 (A6 Card), confirm its size, and select [Paper Size] - [Custom Size] to specify the size.

#### For Tray 1

Up to 20 postcards can be loaded into the tray.

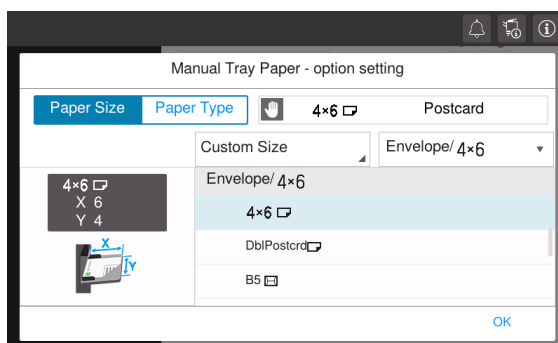

- Load postcards with the print side facing up.
- Align the **Lateral Guide** with the postcard size.
- Select the desired postcard size from [Envelop/4 × 6] ([Envelop/A6 Card]) of [Paper Size].

### For Bypass Tray

Up to 20 postcards can be loaded into the tray.

- Load postcards with the print side facing down.
- Align the **Lateral Guide** with the postcard size.
- Select the desired postcard size from [Envelop/4 × 6] ([Envelop/A6 Card]) of [Paper Size].

**Available operations in this  
machine**

---

## 7 Available operations in this machine

This machine provides the copy function, print function, and scan/fax function as major functions. This section describes the basic operations for each function.

If you want to learn about more detailed descriptions or operation methods, refer to the HTML User's Guide included in the User's Guide DVD.

### 7.1 How to copy

#### Basic copy operations

This section describes the basic copy operations.

- 1 If user authentication is enabled, the login screen appears. Enter the required items, and tap [Login].

- 2 Load the original.

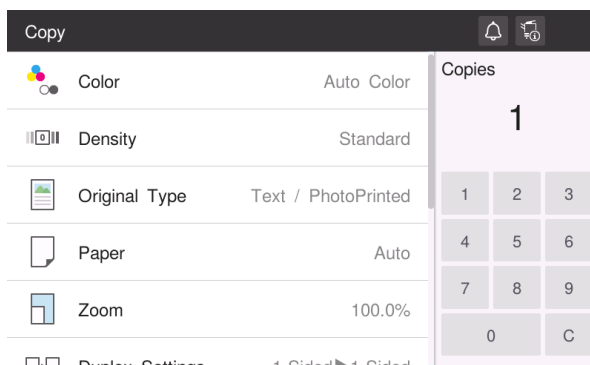

→ When loading the original into the **ADF**, pull out the **Document Stopper** (1) to prevent the scanned original from falling.

- 3 Tap [Copy] on the home screen.

- 4 Set copy options as needed.
- Specify the size of the target original in [Scan Size] (default: [8-1/2 × 11] (inch area)/[A4] (centimeter area)). If you fail to set the original size correctly, the image may be cut off.

- 5 If necessary, specify the number of copies using the keypad.
- 6 Use the Start key to start copying.

## 7.2 How to print

### Basic print operations

This section describes the basic print operations.

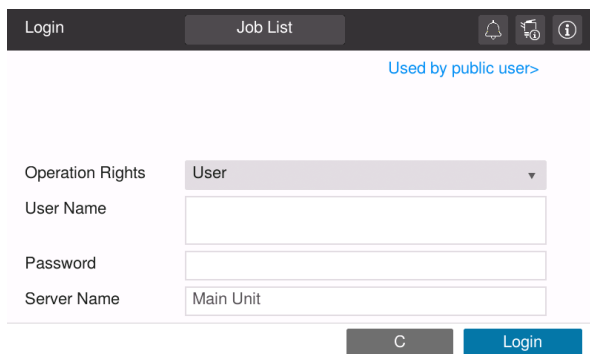

- 1** Open document data using the application software. From the [File] menu, select [Print].
- 2** Check the [Printer Name] (or [Select Printer]) make sure that the desired printer has been selected.  
→ The [Print] dialog box differs depending on the application.
- 3** Specify the print range and the number of copies to print.
- 4** Click [Properties] (or [Preferences]) to change the print settings of the printer driver as necessary.
- 5** Click [Print].

## 7.3 How to scan

### Basic scan operations

This section describes the basic scan operations.

- 1 If user authentication is enabled, the login screen appears. Enter the required items, and tap [Login].

The login screen features a dark header with 'Login' and 'Job List' buttons, and notification, help, and info icons. Below the header, it indicates 'Used by public user>'. The main area contains a form with the following fields:

- Operation Rights: User (dropdown menu)
- User Name: [Text input field]
- Password: [Text input field]
- Server Name: Main Unit (text input field)

At the bottom right, there are two buttons: 'C' and 'Login'.

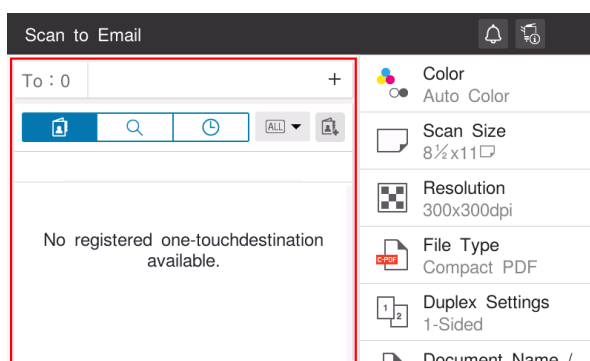

- 2 Load the original.

→ When loading the original into the **ADF**, pull out the **Document Stopper** (1) to prevent the scanned original from falling.

- 3 Tap the scan function key on the home screen.

- 4 Specify the destination.

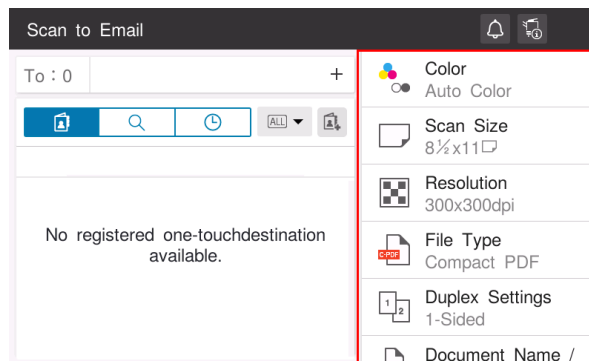

The 'Scan to Email' screen displays a 'To : 0' field with a '+' icon for adding recipients. Below this is a red-bordered box containing the message: 'No registered one-touch destination available.' To the right of this box is a list of scan settings:

- Color: Auto Color
- Scan Size: 8½x11
- Resolution: 300x300dpi
- File Type: Compact PDF
- Duplex Settings: 1-Sided
- Document Name /

**5** Specify transmission options as needed.

- Specify the size of the target original in [Scan Size] (default: [8-1/2 × 11] (inch area)/[A4] (centimeter area)). If you fail to set the original size correctly, the image may be cut off.

**6** Use the Start key to start transmission.

## 7.4 How to fax

### Basic fax operations

This section describes the basic fax operations.

- 1 If user authentication is enabled, the login screen appears. Enter the required items, and tap [Login].

- 2 Load the original.

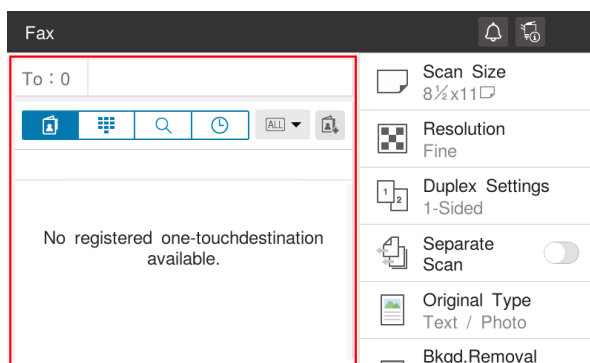

→ When loading the original into the **ADF**, pull out the **Document Stopper** (1) to prevent the scanned original from falling.

- 3 Tap [Fax] on the home screen.

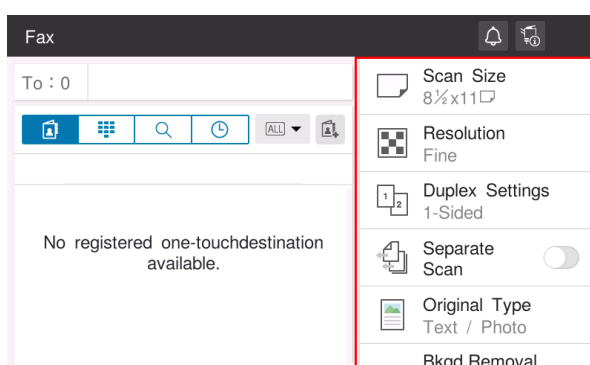

#### 4 Specify the destination.

#### 5 Specify transmission options as needed.

- Specify the size of the target original in [Scan Size] (default: [8-1/2 × 11] (inch area)/[A4] (centimeter area)). If you fail to set the original size correctly, the image may be cut off.

#### 6 Use the Start key to start transmission.

## **Registering a destination**

## 8 Registering a destination

### 8.1 How to register a destination

#### Registering a fax address

- 1 Tap [Utility] - [Utility] - [Store Address] - [Address Book] - [New Registration].
- 2 In [Select Destination], select [Fax].
- 3 Enter destination information.

Setting	Description
[No.]	Destination registration number. Select [Use opening number] to automatically assign the smallest available number. When you want to specify a number, select [Direct Input] and then enter a number.
[Name]	Enter the destination name (using up to 24 characters).
[Index]	Select an index to search for a destination using the registered name. For a frequently used destination, select the [Main] check box. The destinations are displayed on the destination selection screen, enabling the user to easily select a destination.
[Destination]	Enter the destination fax number (using up to 38 digits, including symbols #, *, -, and characters T, P, and E). <ul style="list-style-type: none"> <li>• [T] or [*]: Enter the fax number when issuing a push signal in dial-up line mode (while [Dialing Method] is set to [10pps] or [20pps]).</li> <li>• [P]: Enter this when you want to insert a wait time between dials.</li> <li>• [-]: Enter this to separate a dial number. It does not affect the dialing of the number.</li> <li>• [E-]: Enter the registered outside line number in PBX environment. This option is displayed when [PBX Connection Setting] is set to ON.</li> </ul>
[Confirm Fax Number]	Enter the fax number again. This option is displayed when [Function ON/OFF Setting] - [Confirm Address (Register)] is set to ON.
[Communication Setting]	If necessary, specify how to send a fax to a destination you want to register. You may change the settings you made here before sending a fax. <ul style="list-style-type: none"> <li>• [V34 Off]: V.34 is a communication mode used for super G3 fax communication. When the remote machine or this machine is connected to a telephone line via PBX, however, you may not establish a communication in the super G3 mode depending on telephone line conditions. In this case, it is recommended that you turn the V.34 mode off to send data.</li> <li>• [ECM Off]: ECM is an error correction mode defined by ITU-T (International Telecommunication Union - Telecommunication Standardization Sector). Fax machines equipped with the ECM feature communicate with each other, confirming that the sent data is free of errors. This prevents image blurring caused by telephone line noise. The communication time can be reduced by setting ECM to OFF for transmission. However, an image error or communication error may occur depending on the specified communication time value, so change the value to suit conditions.</li> <li>• [International Communication]: Used to send a fax to areas where communication conditions are poor. Faxes are sent at a lower speed.</li> <li>• [Check Destination]: The fax number specified for fax is checked against the destination fax number (CSI) and the fax is sent only when they match.</li> </ul>

- 4 Tap [OK].

## Registering E-mail address

- 1 Tap [Utility] - [Utility] - [Store Address] - [Address Book] - [New Registration].
- 2 In [Select Destination], select [E-mail Address].
- 3 Enter destination information.

Setting	Description
[No.]	Destination registration number. Select [Use opening number] to automatically assign the smallest available number. When you want to specify a number, select [Direct Input] and then enter a number.
[Name]	Enter the destination name (using up to 24 characters).
[Index]	Select an index to search for a destination using the registered name. For a frequently used destination, select the [Main] check box. The destinations are displayed on the destination selection screen, enabling the user to easily select a destination.
[E-mail]	Enter the E-mail address of the destination (using up to 320 characters, excluding spaces).

- 4 Tap [OK].

**Read this if you have a  
problem**

---

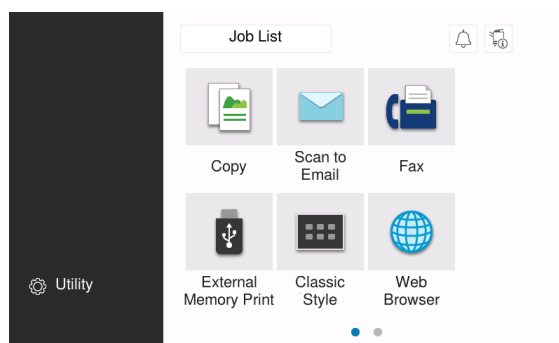

## 9 Read this if you have a problem

### 9.1 Main messages and remedies

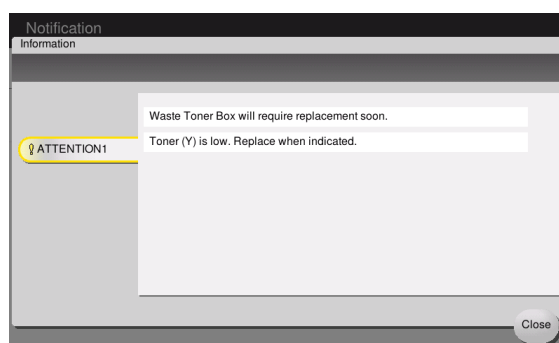

#### 9.1.1 Checking a notification message on the Touch Panel

The notification icon is displayed on the home screen when there is a machine condition warning or notice notification. You can tap the icon to check the notification contents.

- 1 Tap the notification icon on the home screen.

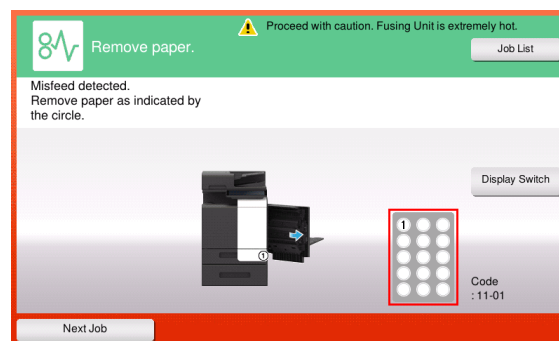

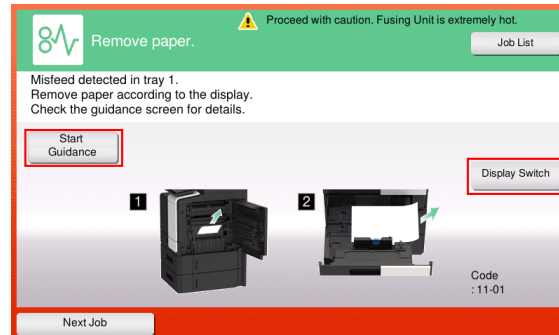

- 2 Tap [ATTENTION List], and check the notification list.

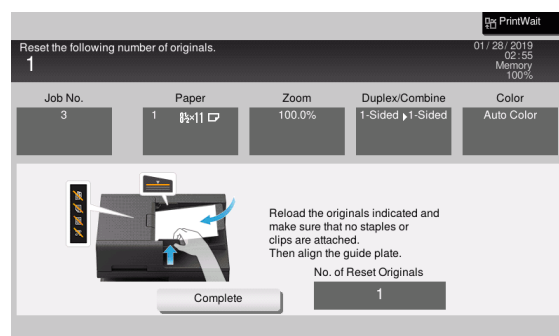

### 9.1.2 Screen displayed at occurrence of paper jam

If any paper jam occurs on this machine, the paper jam clearing procedure and the paper jam location are displayed on the screen of this machine. Confirm the clear procedure and jam location, and follow the guidance to clear the jam.

If a paper jam is not cleared securely, the warning message is not reset. For details on how to take an action when a paper jam message is not reset, refer to the HTML User's Guide.

When a paper jam is cleared, a screen showing how to correctly load paper or the original is displayed.

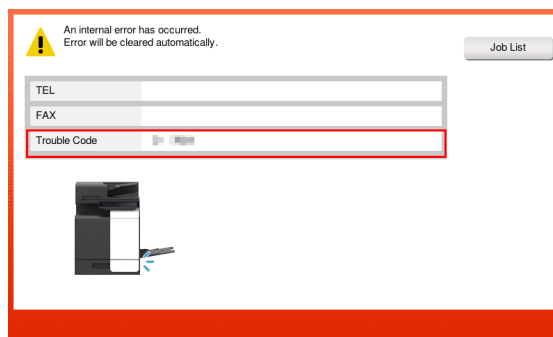

Return the original or paper, and tap [OK] or [Complete]; the system restarts scanning or printing of the original.

Item	Description
[Start Guidance]	Tap this button to start the guidance showing how to clear a paper jam.
[Display Switch]	Changes the screen that shows the paper jam clearing procedure and the screen that shows where the paper jam occurred.
Number (Indicates the paper jam position number)	Displays a list of paper jam position numbers.

### 9.1.3 When an error message appears

When an error is detected, the following message appears. Take the appropriate action according to the message displayed on the screen. If you cannot resolve the error, write down the [Trouble Code], and contact your service representative with the power plug disconnected from the power outlet.

In normal circumstances, the phone number and fax number for your service representative appear in the center of the screen.

#### **NOTICE**

*If a defective part can be separated in order to be able to continue operations after a problem has been detected, [Continue] or [Recover Data] is displayed. To continue operations, select any key. However, the problem has not been resolved, so contact your service representative immediately.*

## 9.2 When the Touch Panel is not visible

If a certain length of time has elapsed without any operations being carried out on this machine, the **Touch Panel** may turn off.

Check the following items:

- Touch the **Touch Panel**. In Power Save (Low Power/Sleep) mode, this machine returns from Power Save mode when the **Touch Panel** is touched or a key on the **Control Panel** is pressed, and the **Touch Panel** appears normally.

- On the **Control Panel**, press the **Power** key. If the Weekly Timer setting has put the machine in Erp Auto Power off mode, press the **Power** key to display the **Touch Panel**. To use it outside the preset operating hours, follow the on-screen instructions.

- Check to see that the **Main Power Switch** is turned ON.

## 9.3 When printing quality has deteriorated

### Cleaning the Original Glass and roller

Wipe the surface using a soft, dry cloth.

#### ⚠ CAUTION

- The inside of this product has areas subject to high temperature, which may cause burns. When checking the inside of the unit for malfunctions such as a paper misfeed, do not touch the locations (around the fusing unit, etc.) which are indicated by a "Caution HOT" caution label. A burn could result.

### Cleaning the Slit Scan Glass

Wipe stains off the glass surface using a dry, clean cloth.

#### NOTICE

Do not touch the **Slit Scan Glass**.

## Cleaning the Slit Scan Glass (back)

- 1 Open the **ADF**.

- 2 Open the **Opening and Closing Guide**.

- Release the lock lever of the **Opening and Closing Guide**, and open the **Opening and Closing Guide**.

- 3 Wipe stains off the **Slit Scan Glass (back)** and **Lateral Guide** using a dry, clean cloth.

### **NOTICE**

*Do not touch the **Slit Scan Glass (back)**.*

- 4 Close the **Opening and Closing Guide** you opened in step 2.

### Cleaning the Print Head Glass

Printing quality deteriorates if the **Print Head Glass** is dirty. If this occurs, clean the **Print Head Glass** according to the following procedure.

- 1 Open the **Front Door** of the machine.

- 2 Remove the **Waste Toner Bottle**.

- 3 Remove the **Printhead Cleaner** from the **Front Door** of this machine.

- 4 Slowly insert the **Printhead Cleaner** all the way to the back end of the **Print Head Glass**, and then slowly pull it out.  
→ Repeat this operation approximately three times for all the **Print Head Glass** sections.

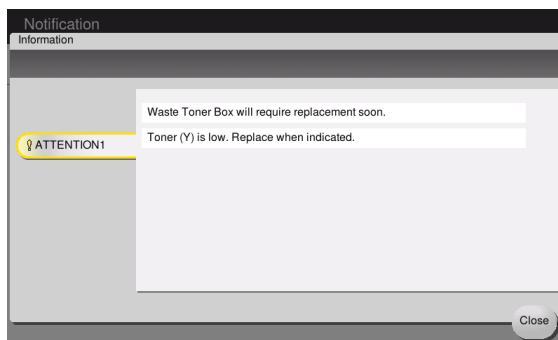

- 5 Mount the **Printhead Cleaner** onto the **Front Door** of this machine.  
6 Mount the **Waste Toner Bottle**.  
7 Close the **Front Door** of the machine.

## 9.4 When a message appears to replace consumables or carry out cleaning

A message appears indicating the time(s) that expiring consumables used in this machine should be replaced. Also, a message appears when the **Slit Scan Glass** is dirty.

Replace consumables or clean the **Slit Scan Glass** as instructed in the displayed message. Contact your service representative if the messages continue to appear even after replacement or cleaning has been carried out.

### 9.4.1 About Imaging Unit

When it is time to replace an **Imaging Unit**, a message appears to prompt you to contact your service representative. If the message appears, contact your service representative.

#### Tips

- The settings by the service representative are required to display a message about **Imaging Unit**. By the factory default status, this message is displayed only in some area. For details, contact your service representative.

### 9.4.2 About Toner Cartridge

#### When toner is running out in the Toner Cartridge

When it is almost time to replace a **Toner Cartridge**, an advanced warning message appears. Prepare a **Toner Cartridge** for replacement based on the maintenance contract.

#### When it is time to replace a Toner Cartridge

When it is time to replace a **Toner Cartridge**, a replacement prompt message appears. Replace it based on the maintenance contract. You can display the replacement procedure on the screen and check it.

#### Tips

- Do not replace a **Toner Cartridge** of a color that is not displayed.

## Replacing a Toner Cartridge

The following example shows how to replace a **Yellow Toner Cartridge**.

### Tips

- Shake a new **Toner Cartridge** well vertically, horizontally, and back and forth, approximately 5 to 10 times, before installing it.
- If a toner cartridge other than for black is empty, printing can be continued forcibly using black. Tap [Continue], and then select a desired print job.
- Do not forcibly open or disassemble a **Toner Cartridge** (toner container).
- Do not forcibly remove or dispose of toner that remains in a **Toner Cartridge** (toner container).

### NOTICE

Install a **Toner Cartridge** for each label color. If you try to forcibly install a Toner Cartridge in the incorrect position, it may result in a failure.

### ⚠ WARNING

- Do not throw toner or a container that contains toner (e.g., toner cartridge, developing unit and Waste Toner Box) into an open flame. The hot toner may scatter and cause burns or other damage.

**⚠ CAUTION**

- Never touch the electrical contacts of the units (e.g., toner cartridge and developing unit), as an electrostatic discharge may damage the product.
- Do not leave toner-related parts (e.g., toner cartridge, developing unit and Waste Toner Box) within easy reach of children. Licking any of these parts or ingesting toner could damage your health.
- Do not store toner-related parts (e.g., toner cartridge, developing unit and Waste Toner Box) near devices susceptible to magnetism, such as precision equipment and data storage devices, otherwise they may malfunction. They could cause these products to malfunction.
- Do not force open the toner-related parts (e.g., toner cartridge, developing unit and Waste Toner Box). If toner tumbles from the toner bottle, take utmost care to avoid inhaling it or even getting skin contact.
- If toner lands on your skin or clothing, wash thoroughly with soap and water.
- If you inhale toner, move to a place with fresh air and gargle with a lot of water repeatedly. Should you get symptoms such as coughing, seek medical advice.
- If you get toner into your eyes, immediately rinse them with running water for over 15 minutes. Seek medical advice if irritation persists.
- If you swallow toner, rinse out your mouth and drink a few glasses of water. Seek medical advice if necessary.

### 9.4.3 About Waste Toner Bottle

When the **Waste Toner Bottle** is full, a message appears to prompt you to replace it (at replacement by user). Follow the displayed guidance to take an action.

#### Replacing a Waste Toner Bottle

#### Tips

- Your service representative will collect your used **Waste Toner Bottle**. Put it in a plastic bag, and store it in a box by itself.

---

**⚠ WARNING**

- Do not throw toner or a container that contains toner (e.g., toner cartridge, developing unit and Waste Toner Box) into an open flame. The hot toner may scatter and cause burns or other damage.
