

Swiftpak Ltd Environmental Policy Certificate

Swiftpak Ltd provides a comprehensive Waste and environmental management service to commerce and industry. We recognize our responsibility towards the protection of the environment and demonstrate our commitment to prevent pollution through the implementation of this policy statement, and development of an accredited ISO 14001 environmental management system.

The company shall comply with all applicable environmental legislation, guidance, best practices, and will:-

- Develop techniques and practices to maximize the recycling and recovery of waste, thereby minimizing the disposal of waste to landfill
- Reduce our use of non-renewable resources
- Inform and encourage our customers to adopt waste management practices which further facilitate the recovery of resource from waste.
- Ensure that all employees understand the potential environmental impacts of their work activities, and are familiar with relevant controls and improvement initiatives which will contribute to the overall reduction of our environmental impact.
- Through the systematic monitoring of our environmental impacts and review of our environmental management system, senior management and all employees are **committed to the continual improvement** of our environmental performance.
