slice™ a cut above the rest

New Ceramic Blade Technology

**STAY SHARP
FOR LONGER**

Up to 10x longer lasting
blades vs steel.

**REDUCE RISK
IMPROVE SAFETY**

Safer rounded blade
edges. Easier to handle.

**DEFIES CUTTING
CONVENTION**

A safer, sharper cutting
experience.

**PUSHING CUTTING
TECHNOLOGY**

A single Slice ceramic
knife = 10 high-end
double end metal blades.

**SAFETY LEAD
TECHNOLOGY**

Less blade which equals
Less injuries.

**UTILISING CUSTOM
CERAMICS**

Replacing metal with slice
ceramics.

Did you know...

More than half the Fortune-1000 now use Slice patented ceramic blades to reduce injuries and lower costs in their manufacturing and operations.
