HIGH QUALITY ADHESIVE TAPES FROM SWIFTPAK

150m in length.
127% more tape
than standard rolls.

The advanced Supatak range of tapes uniquely formulated to deliver consistent high performance in all applications, while specifically formulated for use with recycled cartons.

Today's corrugated boxes are including more and more recycled content, with even most Kraft papers now containing some recycled content. This makes them more challenging to seal because of the shorter fibres, resulting in a 'dusty' surface.

Supatak tapes have a high initial 'grab' are stickier than conventional sealing tapes, as a result the versatile, super adhesive tape will perform better in most packaging environments today.

"Stickier than conventional sealing tapes, performing better than others"

Code	Size	Colour	Pack Qty
ATSTE154BR	50mm x 150m	Brown	36
ATSTE154CL	50mm x 150m	Clear	36
ATSTE154FR	50mm x 150m	White printed 'FRAGILE'	36
